52 aleksand. bovin of izvestiya looks at years of

soviet-american diplomatic relations: ups and downs of sov-american relations are not accidental. ussr is as usual ready for normalizing relations with usa but on one conditions: it demands that talks be conducted on equal footing and with due respect for principle of equality and equal security. but usa is still gripped by chauvinism and war hysteria. if reagan gets another term of office, this may mean another four yrs of strained nerves, arms buildup and walking on edge of nuclear abyss. adventurism is likely to lead to growing isolation of usa.
